

## Transfer Basics

- Max # of credits from a 2-year institution = 66 credits (16.5 units)
- Max # of credits from a 4-year institution OR between a 2-year and 4-year institution = 96 credits (24 units)
- Most courses will transfer if a min. grade of “C” has been earned
- Prior grades will determine if a course may transfer, but the actual grade does not transfer to TCNJ. Transfer coursework will read “T” instead of an actual grade on the TCNJ transcript.
- All transfer students begin at TCNJ with a 0.00 GPA.
- Why a course may not have transferred...
  - Earned lower than “C” grade (or lower than required grade for transfer)
  - Course was completed ungraded (Pass/Unsatisfactory)
  - Course was developmental (lower than 100 level)
  - Student exceeded max. number of transfer units
  - A final transcript was never received
